Product description:

The Vitamin Skin Tint from lavera combines skin care with a lightly tinted moisturiser that gently refines your complexion.

The Vitamin Skin Tint from lavera combines skin care with a lightly tinted moisturiser that gently evens out minor imperfections. Its silky texture spreads evenly across the skin and leaves a natural nude effect. It provides a wonderfully weightless feel and an even finish with a muted glow.

The natural formula with tried and tested organic aloe vera, organic sea buckthorn (also known as the “vitamin C bomb from the north”), vitamin E and squalane nourishes, soothes and protects the skin from environmental stressors for a fresh and healthy look.

Tips from Gabi Köberl:

Starting from the centre and working outward, apply a small amount of the tinted day cream evenly across your face, carefully blending it in with your fingertips or a brush. Repeat this step to increase coverage.
