* ingredients from certified organic agriculture ** natural essential oils

Tips from Gabi Köberl:

To cover dark circles, apply the concealer under the eyes and the inner corner of the eye. Then dab with your fingertip. Important: To make dark circles under the eyes disappear, the concealer may be a bit lighter than the your skin tone, and as a result, the eye area is brightened up.

To ensure more luminosity to the face and to set bright accents, apply the concealer to the center of the forehead, at the outer corners of the eyes, above the cheek bone, and on the tip of the chin and gently blend.
