Beautiful eyebrows defines the look and provides the face with contour and character.

The eyebrow pencils form the eyebrows into shape. They define and compensate for minor irregularities and are the perfect choice for any makeup look.

The decorative cosmetics by lavera contains no synthetic ingredients. Natural minerals and nourishing organic oils, organic waxes and organic moisturisers are essential elements, as well as natural colours. Lavera makeup not only underlines the natural beauty of a woman, but nourishes the eyes, lips, mouth and of course the complexion with its newly developed organic flower extracts, such as rose, lime blossom and mallow.

The texture containing selected organic ingredients, such as organic Jojoba oil and organic Shea butter ensure the pencils are pleasantly soft with long-lasting texture.

Tips from Gabi Köberl:

To compensate for unevenness, fills the brows using small strokes. This way the look appears more natural.
