Product description:

Create stunning looks with Signature Colour Collections from lavera. Four perfectly coordinated shades with innovative textures offer countless possibilities to put your eyes in the spotlight. The creamy texture of the eyeshadows is easy to apply and blend. The texture can be built up to the desired colour intensity. The formula contains high-quality ingredients like organic almond oil and vitamin E to pamper delicate eyelids and provides an extra-long hold without settling in the crease.

Tips from Gabi Köberl:

Apply the eyeshadows to the eyelid with a brush or clean fingertips.
