Product description:

Protects and cares for demanding skin

Sea buckthorn berry oil with its high levels of antioxidants counteracts inflammatory processes and thus plays an important role in maintaining the skin's youthful appearance. It increases the resilience of connective tissue, regenerates the skin and keeps it soft and elastic. It has a soothing and wound healing effect.

Hyaluronic acid doesn't just retain moisture, it also forms a smoothing film on the skin, which fixes the horny cells - pads wrinkles, and leaves the skin feeling wonderfully soft and smooth.

Argan oil promotes cell regeneration, smooths the skin and keeps it supple.

Its high level of antioxidants counteracts free radicals - a natural fountain of youth for the skin.

vegan, gluten-free, lactose-free
