This high-quality, pure coconut oil with vitamin E nourishes and smooths damaged and stressed hair tips. Also ideal for use on the skin.

vegan, gluten-free, lactose-free

Ingredients:

Cocos Nucifera (Coconut) Oil*, Tocopherol, Helianthus Annuus (Sunflower) Seed Oil*, Parfum (Fragrance)**

*from controlled organic cultivation

**naturally essential oils

Tips from Gabi Köberl:

Coconut:

The symbol of tropical coasts and the allure of far-off places: the coconut tree. Harvesting the coconuts at dizzying heights is certainly no easy feat. Nevertheless, beneath the fruit's hard shell, the coconut flesh and water harbours a range of beneficial properties. The coconut milk made by puréeing the flesh not only tastes delicious, but also makes the skin wonderfully smooth and soft. Coconut oil is also extracted from the fruit's flesh. Thanks to its high content of saturated fatty acids, its uses are extremely diverse. Coconut oil provides skin and hair with intense, natural moisture – and smells divinely tropical.
