Tips from Gabi Köberl:

Glossy shine for your hair

There are only a few regions on Earth where nettles cannot be found. Despite the nasty sting of its hair when touched, the plant has a lot to offer: a high content of minerals, flavonoids, iron, vitamin A, vitamin C and trace elements. As an ingredient in haircare products, the nettle is an effective treatment against dandruff and hair loss,

and gives the hair extra shine.
