Product description:

Intensive care for greasy & blemished skin

A mask that is applied as a treatment for skin prone to inflammation and blemishes.

Ingredients:

Aqua, Helianthus Annuus, Salvia Officinalis, Hamamelis Virginiana, Sambucus Nigra, Quillaja Saponaria, Cetearyl Alcohol, Kaolinite, Acorus Calamus Rhizome, Urtica Dioica, Rosa Damascena, Montmorillonite, Cetyl Alcohol, Salvia Officinalis, Melaleuca Alternifolia, Myrtus Communis

Tips from Gabi Köberl:

Evening usually only the cleansing milk is needed. It has rehydrating properties and is sufficient protection for skin during the night. The skin should have the ability to breathe at night, meaning that sweat and slag are able to freely reach the surface of the skin. As a result, the skin remains healthy and is back to its natural balance.
