Product description:

Mascara is an essential makeup item for any girl. It magically transforms small and tired looking eyes into bright, feminine and flirtatious looking eyes. Once you apply this high quality gluten free and vegan mascara, the natural waxes and purified mineral pigments will give your lashes a deep conditioning treatment while creating the look of dramatic curves and ultimate volume.

Let's face it, not all of us girls are blessed with natural long and thick eyelashes. Sometimes your natural eyelashes are thin and light and this can make your eyes look small and dull. However, a touch of mascara will open up your eyes and easily create that sweet and feminine flirty look.

Our amazing long lasting mascara will give you lush and thick lashes and will stand up to the elements all day long. The applicator brush is designed to cover all of your lashes and build volume without clumping, so that you can have those irresistible big fluttery lashes.

Not only does this mascara make your lashes look more glamorous, it also improves their health and makes them thicker and stronger. This high quality botanical mascara contains protective quince wax as well as nourishing castor oil, which have a deep conditioning effect on your lashes and leave them stronger and healthier.

Tips from Gabi Köberl:

Start by wiggling your mascara wand left and right at the base of the lashes. When you put mascara near the roots it will give the illusion of more length. Next, pull the wand up through your lashes, gently wiggling it back and forth as you go along. It is important to wiggle the wand, as this separates your lashes.

Wait five seconds before blinking or you will end up with little dots of mascara around your eyes!
