Product description:

Your lashes look like they go for miles! What is your secret? It's simple; Sante Natural Lash Mascara lengthens and defines your lashes so that your eyes look elegant and feminine. This superb mascara not only gives you sultry long lashes, it also nourishes and cares for your eyelashes with castor oil, jojoba oil and sweet almond oil so that they will be healthier and stronger.

What could be more sexy and feminine than full, healthy, long eye lashes? They frame your eyes and draw attention to the depth and beauty within them. Full and glamorous lashes are always in fashion because of the way they are so flattering to the eyes.

If your eye lashes are naturally small and short, this can make your eyes look smaller and even tired and dull. You will be amazed at how much a simple sweep of Sante Endless Lashes mascara can do to brighten and open up your eyes, making them look bigger. This lengthening mascara has tiny fibers which will attach themselves to the tips of your lashes and make them look much longer than they really are.

Try Sante Natural Lash Mascara today and see what a difference it can make in the look of your lashes. Be careful with your new super-long and luscious lashes, they will make you virtually irresistible!

Tips from Gabi Köberl:

Before applying mascara, you can dust your lashes with powder or coat them with a primer which will help the mascara to adhere to the lashes and last longer. The next step is to wiggle the wand from the base of the lashes to the tips so that you can evenly distribute the amount. The wiggling motion prevents the mascara from clumping.
