Moisturize and balance dry/combination skin.

Weleda Iris Hydrating Day Cream helps wishy-washy skin find its natural, beautiful balance.

Biodynamic iris root extract helps balance moisture levels in the skin, as organic shea butter and organic cocoa seed butter, both rich in essential fatty acids, nourish your skin naturally to leave it supple and smooth. Jojoba seed oil helps to combat dryness while witch hazel extract soothes and refreshes.

This all-natural face cream is the secret to soft, luminous and healthy skin. Use each morning to bring skin into healthy balance, and you'll be ready to face whatever the day may bring.
