Product description:

Moisturize to Soothe Dry, Sensitive Skin

Weleda Almond Soothing Facial Cream is like a warm, calming embrace for dry, sensitive and reactive skin.

Organic sweet almond oil gently nourishes with soothing vitamin E and essential fatty acids that skin needs to be healthy and supple. The antioxidants in plum kernel oil help guard from damaging environmental influences. Beeswax protects skin while allowing it to breathe and function normally.

Fragrance-free, hypoallergenic and all-natural, this rich moisturizing cream strengthens skin's natural protective barrier and restores moisture to leave dry skin soft, calm and healthy.

Ingredients:

Water (Aqua), Prunus Amygdalus Dulcis (Sweet Almond) Oil, Alcohol, Glyceryl Stearate SE, Hydrolyzed Beeswax, Prunus Domestica (Plum) Seed Oil, Glycerin, Xanthan Gum, Lactic Acid.

Tips from Gabi Köberl:

Apply to face, neck and décolleté morning and night. Massage in gently. For very dry skin, Almond Soothing Facial Cream can be used in combination with the more deeply protective Almond Soothing Facial Oil to produce a richer cream.
