The Junior Toothpaste is the ideal dental care for milk teeth and is suitable from the age of 6. With an age-appropriate fluoride content and a naturally mild flavour, the tooth gel makes brushing the teeth a pleasure. It effectively protects against tooth decay and promotes the hardening of tooth enamel to keep your child's teeth strong and beautiful. The gentle, mineral cleaning agents clean thoroughly and gently, while valuable calendula flower extract supports gum care. The gel reduces plaque formation and gum problems.
