

Original Rügener Chalkstone

Manufacturer: CMD
Order ID: 070101
Price: 6.95 €

Product description:

The raw material for cosmetic do it yourself-ers!

The Original Rügener Chalkstone by CMD Naturkosmetik is a purely natural product for do-it-yourself cosmetics. It has regulative properties and contains trace elements and minerals that balance the electrolyte level of the skin. Skin appears more matte, even and fresher looking whilst its natural protective barrier function is strengthened. The Rügener chalkstone is largely made up of calcium carbonate that is found in teeth and bones. It is an effective natural acid blocker thanks to its alkaline pH value.
