

enzyme peeling powder

Manufacturer: Santaverde

Order ID: SA23950

Price: 24.90 €

Product description:

Mild bromelain found in pineapple gently removes dead skin cells and deposits whilst boosting regeneration. The powder contains gluconolactone found in corn that is ideal for sensitive skin. It provides an additional exfoliating effect, strengthens the skin barrier and stimulates cell renewal. Clay absorbs toxins and remineralises the complexion whilst refining it. Thus, the peeling reveals skin that is radiant and beautifully prepped for subsequent skincare products.

Ingredients:

Microcrystalline Cellulose, Sodium Lauroyl Glutamate, Sorbitol, Kaolin, Starch Phosphate, Gluconolactone, Xanthan Gum, Lactic Acid, Calcium Lactate, Bromelain, Silica, Parfum*, Limonene.

*Certified organic **Natural apricot scent

NATRUE certified organic skin care, free from synthetic fragrances, colourings and preservatives and 100 % vegan.

Tips from Gabi Köberl:

Use daily or as needed after cleansing the skin. Place ca. half a teaspoon of powder in the palm of your hands and mix with a small amount of water. Mix the powder and water until a creamy consistency is formed. Apply to the skin and leave in for 2 - 3 minutes. Rinse thoroughly with plenty of warm water afterwards.
