### Tips from Gabi Köberl:

After cleansing and toning, gently apply a grain-of-rice-sized amount of the hydrating eye serum around the eye and massage in.

For a fresh look in the morning: Put in the refrigerator overnight and apply hyaluron eye serum generously to the eye area in the morning as a refreshing eye mask. After 5 - 10 minutes, gently massage in or remove any excess product residue.

With the Mix & Match principle, you can adjust, mix and match the individual products to your daily changing and seasonal skin needs. Try it out!
