

Face cream 5 % urea No.7

Manufacturer: Bioturm

Order ID: BT123

Price: 12.95 €

Product description:

With moisturizing urea for daily care of facial skin.

Urea is found on healthy human skin as a natural moisturizer. In case of extremely dry skin, neurodermatitis and psoriasis the content of urea is reduced considerably, meaning the skin cannot absorb as much moisture as healthy skin can do. Our Face cream 5 % urea gives the skin back the missing urea and together with the lacto-intensive active complex provides for intensive care and regeneration of damaged skin.

The content of moisture of facial skin is increased, itchiness and tense feeling are reduced.

Our Face cream 5 % urea is WITHOUT perfume and thus also suitable for allergic persons.
