Product description:

Regenerating care for the external genital area.

The Intimate ointment No.27 naturally preserves the protective function of the intimate flora. The high percentage of the lacto-intensive active complex reestablishes the balance of acids and promotes the natural pH value. A balanced mixture of traditional, anti-inflammatory plant extracts (camomile, calendula, sage and lavender) provides for regeneration and avoids redness and irritations in the genital area. High quality vegetable oils care for the skin and make it supple.
