

## Tea Tree Oil Organic Facial Toner

Manufacturer: CMD  
Order ID: 020070  
Price: 13.50 €

### Product description:

Refreshing and cleansing facial toner or aftershave

The tea tree oil facial toner is obtained through the distillation of tea tree oil. It is thus very pure and has properties similar to the essential oil. The facial toner is a lot milder and this refreshing and cleansing facial toner is particularly recommended as an aftershave. It is also popular for medical dressings or for mixing cosmetic products.

It is also excellent as a hair tonic. The hydrolate clarifies the scalp and contributes to the prevention of dandruff.

The CMD tea tree oil series is especially suited for oily, impure skin but it is also appropriate for combination skin.

### Ingredients:

Melaleuca Alternifolia Distillate certified organic
