### Product description:

Immediate care for irritations & redness

The skin-care formula of the After Shave Balm combines the functions of an aftershave and a moisturiser. It provides freshness and a cool feeling while at the same time preventing irritations. The two main ingredients, organic aloe vera and organic bamboo, restore moisture to the skin. Bisabolol and organic liquorice extracts, together with green tea extracts, have a soothing effect. Organic olive oil and a vegetable oil mixture re-balance the skin barrier.
