

Cleansing sponge made of Konjac

Manufacturer: ECO-Cosmetics

Order ID: EC72010

Price: 8.95 €

Product description:

For all skin types

Thorough cleansing with gentle peeling effect. For a soft and revitalizing skin sensation!

The “vegan sponge” for face and body consists 100% of fibres from the Asian Konjac root. They are able to store much water which makes the irregular surface of the sponge soft and smooth. The skin is gently freed of surplus skin cells and sebum, it feels clean and elastic.

The sponge cleanses with a gentle peeling effect leaving the skin feeling clean and velvety soft – every day. Our natural fibre cleansing sponge can be used as an alternative to loofah or bath sponges and both with or without a cleansing product.

Ingredients:

Konjac

Tips from Gabi Köberl:

Apply moistened sponge using gentle circular movements to cleanse the face and remove make up from the skin.

Also kind to male skin. Hang up to dry.
