

Sandorini Sea Buckthorn Seed Oil 10ml

Manufacturer: CMD
Order ID: 012040
Price: 11.10 €

Product description:

Luxury care for mature, dry and irritated skin!

The sea buckthorn seed oil contains about 60% polyunsaturated fatty acids, which the body needs for the cell metabolism and which it can't produce. The high content of a-linolenic acid (Omega-3 fatty acid) with about 25% makes the oil a valuable cosmetic oil. It is very skin-friendly and suitable for the intensive care of dry, cracked, itchy or irritated skin. The skin aging process is delayed and the complexion looks fresh and radiant.

Ingredients:

Hippophae Rhamnoides Kernel Extract certified organic
