Product description:

Warm, sweet, bitter almond note

The distinctiveness of this oil is the familiar fragrance, which gives the feeling of security, safety and protection. The typical scent, reminiscent of bitter almond and vanilla, wake beautiful memories in your mind, has a relaxing and soothing effect. The essential tonka extract oil is characterized by coumarin content, which gives the oil the typical spice. Coumarin also give the woodruff the typical spring and summer scent, which is why the tonka fragrance can also call up memories of happy summer days, flower meadows and hay. As an ingredient in body oils, the oil gives a soothing sensual fragrance.
