Product description:

The gorgeously melt-on-the-skin consistency supplies the skin with moisture, soothes and regenerates. Pink clay and Denfensil®-Plus help the skin to recover from daily stressors. The protecting barrier is cared for to ensure a delicate skin feel while Kombu algae extract stimulates collagen synthesis and counters skin aging. It also helps reduce unwanted redness and an unpleasant feeling of heat and restores the skin's natural protective function. Thus the skin's sensitivity is also reduced.
