

## Regular Organic Cotton Tampons

Manufacturer: Natracare

Order ID: N1000

Price: 4.49 €

### Product description:

Our regular organic tampons are made with a rolled wadding of long-fibre organic cotton – designed to gently absorb menstrual flow and expand widthways.

We only make organic tampons because most are made from a mix of rayon and non-organic cotton, and are commonly chlorine-bleached. Tampons often have a plastic wrapper, contain perfumes and even dyes. Rayon is a highly absorbent fibre which rapidly absorbs menstrual blood but at the same time can also dry out the natural protective mucous lining of the vagina.

No-one should be exposed to pesticide residues, phthalates, azo-dyes and dioxins, especially in such a sensitive and absorptive part of the body. Know exactly what you put in your body.

### Ingredients:

Certified organic cotton

Wrapper: BPA-free widely recycled plastic

Packaging: Recycled cardboard
