

Shampoo Orange Vitality

Manufacturer: Khadi
Order ID: Kh7919
Price: 15.90 €

Product description:

The new lightness of life: Vibrant lightness, revitalizing freshness, and natural bounce for your hair.

khadi Orange Vitality Ayurvedic Elixir Shampoo is a burst of freshness for dull hair that tends to get oily quickly.

The secret behind the vitalizing effect and lightness is the khadi Orange Vitality Elixir. This Ayurvedic plant extract combines the individual effects of hand-picked Indian medicinal plants into a whole and multiplies their powers. The khadi Orange Vitality Elixir is the result of gently infused herbs over an open fire in a traditional process according to ancient Ayurvedic formulas.

As soon as you start washing your hair you will notice how it is suddenly brought back to life and how your roots are being stimulated. With its Ayurvedic formula made from herbs and fruit extracts it gently cleanses your scalp and provides your hair with renewed vitality. It will be noticeably lighter and will have visibly more bounce.

The scent of essential oils from Indian Barberry, Nut Grass, and Orange Blossom evokes memories of the perfect summer holiday and reinvigorates the body and soul. The medicinal plant nut grass, which has been used in India for thousands of years, activates the unbalanced and hyperactive scalp. Orange oil invigorates dull hair and opens up your heart chakra, leaving you feeling just like after fresh summer rain. Barberry and Mimosa Catechu have an antiseptic cleansing effect on the scalp and hair and moisturize the hair without weighing it down. Amla creates superb bounce and volume.

Similar to your hair and scalp, the khadi Orange Vitality Ayurvedic Elixir Shampoo has a pH value of 4.0 to 5.0. The ph of your scalp is brought back into balance in a natural way. If you color your hair naturally, such as with

khadi natural hair color, we recommend using the 3-step ritual to effectively prepare for the khadi Orange Vitality Elixir Shampoo. This noticeably helps to protect the intensity of the color.

Tips from Gabi Köberl:

How to get the most out of the khadi Orange Vitality Elixir Shampoo:

Put the amount of shampoo appropriate for your hair length into your hands and lather with water.

To activate your roots, apply the fresh lather to your scalp and work it through the length of your hair for vitalization and moisturization.

You can also leave the Orange Vitality Elixir Shampoo on for a moment to let it fully unfold its refreshing effect.

Thoroughly rinse off the Vitality Elixir Shampoo with warm water and give it a cooling splash at the end.

Use the khadi Application Bottle to optimally dose the khadi Orange Vitality Elixir Shampoo. This ensures that you use the right amount while lathering it up for you at the same time. Using the Application Bottle saves shampoo and water and allows the magical khadi Elixir to work optimally for your hair.

Hair cleaning in Ayurveda: What is considered a daily necessity in the Western world has a higher purpose in Ayurvedic philosophy. Hair washing is part of a holistic ceremony in which the aura and physical body are not only cleansed, but also freed from external energies. With the Ayurvedic khadi Elixir you bring your body, spirit, and soul back into harmony with every wash.
