

Hair Oil Rose Repair

Manufacturer: Khadi
Order ID: Kh13659
Price: 13.90 €

Product description:

khadi Rose Repair Hair Oil Ayurvedic Hair Oil - regenerating & restorative, the Ayurvedic solution for dry, structure-damaged hair.

khadi Rose Repair hair oil nourishes and regenerates your hair. It repairs and strengthens damaged lengths and ends. Use it as the perfect intensive treatment: It smoothes your hair structure and rebuilds the hair shaft naturally.

The secret of khadi Hair Rose Repair is the magical power of the khadi elixir: selected Indian medicinal plants are traditionally boiled down gently over an open fire according to millennia-old Ayurvedic recipes.

This herbal extract combines the queen of flowers, Rose, with the royal herbs Triphala and the superfood Moringa to create an intensively nourishing elixir. The perfect nutrient cocktail for your hair: moisture, vitamins, antioxidants and minerals provide deep conditioning and a silky smooth hair feeling without weighing it down.

Do you have dry, damaged hair? You are annoyed about split ends and hair breakage? Your hair is in desperate need of deep conditioning care? Then the khadi Rose Repair hair oil is perfect for you!

In Ayurveda scalp and hair oil has always been used as a deep hair treatment. Hair oil builds up the hair from within. So the hair not only "seems" to be healthy, it shows its natural beauty and healthy strength.

*from controlled organic cultivation **component of natural essential oils

Tips from Gabi Köberl:

khadi scalp oil Rose Repair is traditionally applied before hair washing:

Simply put 2-3 pump strokes in your hand and gently massage the oil into your lengths and tips.

Alternatively, you can apply the oil with the khadi hair care brush - the natural bristles will distribute the oil evenly into your hair and scalp.

Now wrap your hair with a towel to keep it warm. Give the oil at least 30 to 60 minutes to soak in before washing your hair with a khadi shampoo. For a more intense effect, simply let the oil soak in over night and wash your hair in the morning.

Apply the natural hair care twice a week. You can also use the hair oil as a leave-in in small doses.
