Hair Colour Natural Hazel

Manufacturer:	Khadi
Order ID:	Kh13526
Price:	11.90 €

Product description:

Let your hair shine - in a radiant unique brunette. khadi Natural Hair Color Natural Hazel colors your hair in a medium to dark brown tone without red parts. The result is quite individual and varies according to your original color: Grey or light hair turns into shimmering darkblond up to an intensive medium brown. If your hair is darker, you will receive a rich, darker chocolate brown.

Effective plant extracts like Indigo, Henna, Amla and Bhringaraj color your hair in an intensely dark color. They also cover white and grey hair completely. The hair color is 100% natural and vegan - without synthetic ingredients such as ammonia, peroxides and parabenes.

The plant pigments wrap around each strand of hair like a nourishing layer making your hair feel strong and healthy. You will receive volume, shine and an irresistible nut brown.

Ingredients:

Indigofera Tinctoria (Indigo) - Lawsonia Inermis (Henna) - Emblica Officinalis (Amla) - Eclipta Alba (Bhringaraj) - Azadirachta Indica (Neem)

Tips from Gabi Köberl:

Clean your hair with a silicone-free shampoo such as khadi Neem shampoo. Whether you have white, light or dark hair: khadi Natural Hazel can be applied immediately - without pre-pigmenting.

For blonde, heavily straightened or heavily strained hair, however, we recommend a pre-treatment with khadi Pure Henna or Light Brown so that your hair can evenly absorb the color.

Mix khadi Natural Hazel with 50 degrees hot water until you have a spreadable paste. For the color shade to remain intense and cool, please keep the temperature. A teaspoon of base salt in your color, reduces red tints and intensifies the color depth additionally. If you mix khadi Natural Hazel with warmer water, the color will be more reddish and slightly brighter.

Spread the natural hair color evenly with a brush in your hair: Strand by strand – from roots to the tips. If you only want to color your roots, spare lengths and tips.

Leave in khadi plant hair color Natural Hazel between 30 to 120 minutes. The longer the color is absorbed, the darker the coloring result. Then rinse with clear water - done.

Do not use shampoo for 24 to 48 hours. During this time, the natural hair color fully develops during this time. If you then use a khadi hair oil, you fixate the color pigments for a long lasting result. Wash the oil after 20 minutes with a natural shampoo.

Note: Each hair is different - the way we are all different. Therefore, the results can be different for natural hair color. The best thing is, you test the khadi Natural Hair Color in nut brown only on a discreet sample.
