

Hair Colour Henna, Amla & Jatropha

Manufacturer: Khadi
Order ID: Kh15936
Price: 11.90 €

Product description:

Feel the power of nature - with khadi Henna, Amla & Jatropha. The natural hair color is coloring your hair in a strong bright red to a conspicuous, deep dark red. The result is always unique and depends on your original color: medium blonde to dark hair shines in copper red to mahogany. If you are naturally dark brown to black, you give your hair iridescent red reflexes.

The natural hair color is 100% vegetarian and vegan. Effective ingredients such as henna, amla and jatropha provide intense copper-like nuances to deep mahogany. Also gray hair will be covered by the color pigments. The special feature: the intensifying effect of Amla and Jatropha makes the color even stronger than with pure henna.

Like a glaze, the color pigments wrap around every single hair. You get extraordinary volume and your hair is strengthened from the hairline to the tip. It shines healthy and you get a naturally beautiful result.

Ingredients:

Lawsonia Inermis (Henna) - Emblica Officinalis (Amla) - Eclipta Alba (Bhringaraj) - Bacopa Monniera (Brahmi) - Acacia Concinna (Shikakai) - Terminalia Chebula (Harad) - Terminalia Bellirica Roxb. (Vibhitaki) - Jatropha Glandulifera (Jatropha) - Azadirachta Indica (Neem)

This product has been certified by BDIH:

Tips from Gabi Köberl:

Clean your hair with a silicone-free shampoo like khadi Amla Shampoo. We recommend to pre-treat with khadi Senna / Cassia, Golden Hint or Light Blonde in the case of blond, streaked or heavily strained hair.

Stir khadi Henna, Amla & Jatropha with 80-90 degree hot water until you have a spreadable paste. If you want an intense, fast color result, add acidic supplements like apple vinegar or lemon juice. Distribute the natural hair color evenly with a brush in your hair: Strand by strand - up to the tips. If you only want to color your roots, spare lengths and tips.

Leave the natural hair color between 30 and 120 minutes. The longer it is applied, the darker and stronger the color results. To refresh the color, you only need 15 to 30 minutes. Then rinse thoroughly with clear water - done.

Do not use shampoo for 24 to 48 hours after dying. During this time the color develops its full effect. Then apply khadi hair oil and let it act for 20 minutes to fixate the color pigments. So your khadi hair color will last longer.

Note: Each hair is different - the way we are all different. Therefore the results can be different for natural hair colors. You better test the natural hair color khadi Henna, Amla & Jatropha only on a discreet strand.
