

Hair Colour Black

Manufacturer: Khadi
Order ID: Kh13803
Price: 11.90 €

Product description:

Feel the magic of deep black hair!

With khadi Natural Hair Color Black, you can create a rich, expressive black without blue tint. khadi Black is best suited for medium blond to dark hair. Then you get a shiny, warm black to an intense raven black. You have lighter or gray hair? Then pre-pigment with khadi Pure Henna to get a perfect color result.

The natural hair color contains effective ingredients such as Indigo, Henna and Amla. The natural color dyes your hair intensely and dark. Like a color glaze, the plant pigments lie around each individual hair and nurture it. You feel the resilience and the volume in your hair. They shine healthy and shimmer in a natural black. khadi Black is 100% natural and vegan - without synthetic additives such as ammonia, peroxides or azo colors.

Ingredients:

Indigofera Tinctoria (Indigo) - Lawsonia Inermis (Henna) - Emblica Officinalis (Amla)

Tips from Gabi Köberl:

Clean your hair with a silicone-free shampoo like Khadi Hibiscus Shampoo. Please treat Light blonde, white or gray hair first with Khadi Pure Henna - with an exposure time of 30 to 60 minutes. We also recommend that you pre-pigment your hair so that it can absorb the color uniformly even in the case of blond, heavily straightened or heavily strained hair.

Mix the powder in 50 degrees hot water. Stir with a whisk until a spreadable paste is formed. If you give a teaspoon of base salt into your khadi plant hair color Black, it will dye faster and the durability will be improved. Spread the natural hair color evenly with a brush on your hair: strands for strands - from the lengths to the tips. Except, you only want to color your hairline - then spread it only there.

Leave khadi Black between 30 and 120 minutes. The longer the natural hair color acts, the darker the color results. To refresh the natural hair color, you only need 20 minutes. Then rinse with clear water - done.

Do not use shampoo for 24 to 48 hours, because during this time the final color depth will unfold. Then apply Khadi Hair Oil to your hair and let it act for 20 minutes before washing your hair with natural shampoo. This is how you fix the pigments - for a long-lasting color result.

Note: Each hair is different - the way we are all different. Therefore, the results can vary. We recommend you test the khadi Natural Hair Color Black first on a discreet trial strand.
