

Hair Colour Medium Brown

Manufacturer: Khadi
Order ID: Kh29677
Price: 11.90 €

Product description:

Natural and shiny - khadi Medium Brown dyes your hair in a warm, cinnamon-colored medium brown! The pure herbal ingredients add intensive color reflexes to your hair and provide rich care. khadi Medium Brown adds naturally radiant color, volume and shine to your hair!

Your very personal color result depends on your own, natural initial hair color: it ranges from lively, warm cinnamon brown to a strong, deep middle brown. Adds warm shine and powerful resilience to your hair!

Valuable, purely herbal ingredients give your hair intensive color reflexes and provide rich care - intense color, powerful volume and healthy shine in one step!

Ingredients:

Indigofera tinctoria Leaf Powder, Lawsonia inermis Leaf Powder, Emblica officinalis (Amla) Fruit Powder, Eclipta alba (Bhrigaraj) Whole Plant Powder, Rheum Emodi Rhubarb (Rhubarb) Root Powder, Ziziphus jujuba (Sidr) Leaf Powder, Ziziphus spina-Christi (Ziziphus) Leaf Powder*, Azadirachta indica (Neem) Leaf Powder, Eucalyptus globulus (Eucalyptus) Leaf Powder, Aloe barbadensis (Aloe Vera) Leaf Powder, Matricaria chamomilla (Chamomile) Flower Powder.

Tips from Gabi Köberl:

Wash your hair with a silicone-free shampoo like khadi Nutgrass Shampoo.

Stir the coloring powder with 50 degrees warm water until you receive a smooth and creamy consistency. Apply evenly with a brush: strand by strand - all the way to the tips. If you just want to color your roots, skip lengths and tips. If you prefer to apply the color without a brush, simply spread the color with your hands all over your head. The best thing is to get upside down over the bathtub.

Make sure, that you cover every strand of hair with dye and knead the color very well.

Leave the Natural Hair Color Golden Brown on between 30 and 120 minutes. The longer it sits in your hair, the darker the results will be. If you have already colored with this shade and just want to refresh your color, leave the color in your hair for 15 to 30 minutes.

After exposure time, rinse the Natural Hair Color with clear water only. Don't apply shampoo for 24 to 48 hours because during this time the color depth of your khadi Nuance has time to unfold.

To fix the new color pigments in your hair, you can use a khadi Hair Oil before the first hair wash after coloring. Leave the oil for at least 20 minutes and then wash it out with a natural shampoo. This will make your hair color last longer and adds additional shine.
