

## Deodorising foot cream No.80

Manufacturer: Bioturm

Order ID: BT350

Price: 14.95 €

### Product description:

Odour reduction and callus care in one product.

There is hardly something more unpleasant than meeting other people when having smelly feet, especially in closed spaces. That's why we have developed our Deodorising foot cream No.80 - the ideal combination of usnea extract (beard lichen) and fresh menthol has a deodorising effect and acts against malodour of the feet. At the same time salicylic acid made of wintergreen oil provides for a smooth callus. High-quality vegetable oils and the lacto-intensive active complex additionally provide for smooth and perfectly cared feet. Feet and toe nails are cared for and can regenerate if necessary.

... so that you can spend a carefree summer or meet other people after sport activities!
