visibly replenishes, lifts and tones

Regenerating Serum supports the skin's natural regenerative functions, helping to firm mature skin and minimise the appearance of fine lines and wrinkles. Soothing for reddened, sensitive skin as well.

Formulation: Quince seed and bryophyllum extracts replenish, smoothing wrinkles and fine lines while supporting the skin's ability to balance moisture content. Antioxidant-rich red clover firms and refines, encouraging the skin's natural processes of renewal, as nutrient-rich clover blossom honey protects.
