Tips from Gabi Köberl:

Cleanse in the morning and evening. Moisten face, neck and décolleté with a warm face cloth. Mix ½-1 inch / 1-2 cm of Cleansing Cream with warm water in the palms to form a smooth, creamy paste. Press mixture gently onto skin then roll hands up and away in a wave-like motion. Start in the centre of the forehead then slowly work outward and down.

Avoid the eye area. Repeat the press and roll action 2-3 times. Do not rub or scrub. Rinse with warm water then finish with a splash of cool, fresh water to close pores. For sensitive skin use warm water only.

The moisturising properties of the Cleansing Cream make it the ideal preparation for the Dr. Hauschka oil-free night time skin care products.
