Price: 3.50 €

Product description:

revives dehydrated skin

Revitalising Day Cream gently restores the rhythms for almost all skin conditions. Pallid, dry skin is enlivened with this activating moisturiser. A lightweight moisturiser which balances the oil and moisture content of the skin, with its light citrus scent, refreshes and enlivens skin. Extracts of calendula combine with nurturing oils to balance oil anthyllis and witch hazel which replenishes the skin.

Skin condition: For dehydrated, dry skin.

Ingredients:

Tips from Gabi Köberl:

Each morning after cleansing and toning, apply a small amount evenly to the face, neck and décolleté with your fingers. For combination skin, using Revitalising Day Cream together with a few drops of Clarifying Day Oil provides ideal daytime skin care. Simply mix the two products in your hand and apply to the skin, avoiding the eye area. Revitalising Day Cream is perfect as a primer before applying make-up. In the evening, we recommend using Night Serum or Renewing Night Conditioner as a non-oily night time skin care product.

For combination skin combine Revitalising Day Cream with a few drops of Clarifying Day Oil.
