Product description:

Refreshingly green and forest-protecting

Immerse your body in the revitalising embrace of “Tannenrauschen,” an aromatic shower gel that captures the essence of a refreshing forest bath. Enveloped in the lush embrace of green foliage and aromatic woods, essential fragrances fill the air, offering a sense of invigorating lightness, clarity, and energy. An escape through evergreen forests becomes both soothing and cleansing.

This Fair Edition is more than just a refreshing shower. To ensure tranquility for the forest habitat, it requires our protection above all. Therefore, €1 per shower gel sold benefits the regional forest protection efforts of the non-profit environmental organisation BUND Berlin e.V.

Fir trees for the senses

Fairly traded organic aloe vera imparts revitalising moisture to the skin, while plant-based surfactants cleanse gently – pH-neutral and palm oil-free. The air is infused with the notes of Siberian fir, fortifying the spirit and providing a thorough, refreshing experience. The intense fragrance of evergreen coniferous wood grounds and rejuvenates the spirit, akin to a serene forest retreat.
