Product description:

Pampering, sustainable and generous

Zambia Edition Sensual Care Shower Gel cleanses the skin with plant-based surfactants and pampers it with the finest organic fair-trade oils. At the same time, €2 for each bottle sold, with no deductions, is sent directly to help the work of the i+m co-founded TWIKATANE – a home for women and children in Africa e.V..

Apricot, Shea Butter & Aloe Vera

While mild plant-based surfactants gently cleanse the skin, organic aloe vera from fair-trade provides ample moisture. Precious fair-trade shea butter and cold-pressed apricot kernel oil from organic agriculture protect the skin from drying out, provide natural refatting and make it supple. The sensual aroma of orange and vanilla relaxes body and spirit.

Zambia Edition

The Zambia Edition is not only good for the skin: €2 per bottle goes towards supporting the work of A House for Children and Women's Shelters for Africa e.V. The charitable association, co-founded by i+m, helps women and children in Zambia with education and protection from domestic abuse.

i+m built the first women's shelter in Zambia in 2014, and since then it has been run by local women. In the meantime the women's shelter has been extended to include a school and an orphanage. Women and children can not only find refuge from abuse here, but also opportunities for education and new prospects for an independent life.

Environmentally friendly packaging

The Zambia Edition offers three things at once: the finest vegan organic natural cosmetics, with a donation included in the purchase price, in environmentally-friendly packaging. The bottle (excluding the pump) is made from 100% recycled plastic, otherwise known as recycle.

Tips from Gabi Köberl:

Delightfully apply to wet skin and lather up well. Then rinse off thoroughly and off you go to new good deeds.
