Price: 13.90 €

Product description:

Nourishing, sustainable and generous

Zambia Edition Rich Body Cream nurtures dry skin with selected fair trade organic oils. At the same time, €2 for each bottle sold, with no deductions, is sent directly to help the work of TWIKATANE – A House for Children and Women’s Shelters for Africa e.V..

Apricot, Coconut & Aloe Vera

While cold-pressed fair trade apricot kernel oil and coconut oil treat the skin to nurturing care, aloe vera provides it with ample moisture. The rich body cream absorbs easily and leaves the skin feeling silky smooth. The sensual scent of orange and vanilla soothes body and mind.

The Zambia Edition

The Zambia Edition is not only good for the skin; €2 per bottle goes towards supporting the work of TWIKATANE – A House for Children and Women’s Shelters for Africa e.V. The charitable association, co-founded by i+m, helps women and children in Zambia with education and protection from domestic abuse.

i+m built the first women’s shelter in Zambia in 2014, and since then it has been run by local women. In the meantime the women’s shelter has been extended to include a school and an orphanage. Women and children not only find refuge from abuse, but also opportunities for education and new prospects for an independent life.

Environmentally friendly packaging

The Zambia Edition offers three things at once: the finest vegan organic natural cosmetics, with a donation included in the purchase price, in environmentally-friendly packaging. The bottle (excluding the pump) is made from 100% recycled plastic, otherwise known as recycle.
