### Product description:

Basic care for larger skin areas in case of stressed skin!

We are using colloidal oatmeal combined with our lacto-intensive active complex and have thus developed a lotion which helps to interrupt the itch-scratch cycle and calm irritated skin, especially in case of neurodermatitis.

The regenerating ingredients of oatmeal, such as avenanthramide and beta-glucan primarily reduce itching and also improve the appearance of reddened and irritated skin. Precious organic oils of oat and sunflower additionally nourish the skin with needed lipids and make it smooth.
