Product description:

The first step for fresh, radiant skin Every day your skin suffers from harmful environmental factors such as fine particles and exhaust emissions: they attack skin cells and affect the natural protection mechanism. An extra portion of moisture and protection from environmental factors is essential for fresh, radiant skin. With its light texture, the highly concentrated serum is quickly absorbed, revealing noticeably smoother skin. This vegan formula with natural hyaluronic acid, organic aloe vera and moisturising biosaccharides, replenishes the skin's reservoirs.

The formulation with an Anti-Pollution Complex consisting of natural antioxidants and organic algae has a three-fold effect:

- Protects skin cells from adverse environmental effects
- Counters the effects of free radicals
- Prevents premature skin aging

The result: moisture & protection for a fresher and more radiant complexion – naturally beautiful all day long.

Tips from Gabi Köberl:

Gently massage the serum into cleansed skin as the first step of your daily care routine. Then use your usual lavera moisturiser.
