

Blackthorn Toning Body Oil 75ml

Manufacturer: Dr. Hauschka

Order ID: 1023137

Price: statt 15.50 €
nur **9.99 €**

Product description:

warms and fortifies

Supple, toned skin depends upon skin elasticity. Blackthorn Toning Body Oil offers strengthening, warming skin care for all the family. It has even proved successful during pregnancy when it is particularly important to keep skin supple to prevent pregnancy-induced stretch marks. Blackthorn blossom and birch leaf extracts enhance skin elasticity while sun-drenched St. John's wort and jojoba oil support the skin's natural processes of renewal and fortification.

Formulation: Blackthorn blossoms, birch leaves and St. John's wort are combined with sunflower oil, then carefully blended using unique rhythmic processing methods. During this phase, the mixtures are heated to 37 °C – human body temperature. They are carefully mixed in the mornings and evenings to allow the properties of the nurturing plants to be transferred to the oil.

Ingredients:

Helianthus Annuus (Sunflower) Seed Oil, Prunus Spinosa Flower Extract, Betula Alba Leaf Extract, Simmondsia Chinensis (Jojoba) Seed Oil, Hypericum Perforatum Flower/Leaf/Stem Extract, , Lecithin, Fragrance (Parfum)*, Linalool*, Limonene*, Geraniol*, Citronellol*, Citral*, Coumarin*, Farnesol*, Eugenol*.

*from natural essential oils

Tips from Gabi Köberl:

Apply evenly and massage into your skin.

Applying to moist skin after bathing or showering provides the most effective absorption and improves moisture retention.

For specialised massage that maintains skin elasticity, hold oiled skin between your thumb and index finger, pull it upwards slightly in a pinching motion and then release. Repeat five times per skin area. We also recommend the Body Washes, Baths and Body Moisturisers.
