Product description:

cools and hydrates for a longer-lasting tan

After a day in the sun, your skin can be slightly irritated and warm. Despite using sun cream, it feels drier than usual. Rich, cooling After Sun refreshes and relaxes skin after sunbathing, and on-going use helps maintain your tan for longer.

This fast absorbing lotion contains carrot and rosehip, moisture rich extracts of ice plant and quince seeds that leave your skin feeling silky smooth. Marigold and anthyllis soothe sun-stressed skin. Almond oil, shea butter and rose wax provide intensive moisturising care to prevent your skin from drying out.
