Product description:

Beautifully cared for – the creamy Rich Face & Body Cream for everyone

Intensive basic care for face and body, for any age, for any season: our Rich Face & Body Cream is always there for you. This practical all-weather cream makes dry, chapped, rough skin pleasantly soft and smooth once more. Selected extracts and high-quality fair trade organic oils are easily absorbed into the skin. Always at hand, versatile and naturally creamy with a characteristic unisex fragrance for all the family – a true miracle of skin care.

Aloe vera, shea butter and sea buckthorn

Not only is fair trade aloe vera an effective moisturiser for extremely dry areas of skin, its extract also binds moisture reserves, thus protecting the skin from drying out again. It is assisted in this by rich, fair trade shea butter; with this combination, the classic basic cream preserves the natural elasticity of the skin.

Regionally cultivated sea buckthorn oil contains valuable skin care substances that soothe raw, chapped areas of skin. Produced by an organic project on the island of Werder, near to Berlin, it gives the cream a bright, golden-yellow colour. Cold-pressed almond oil soothes and smooths irritated areas, while these are restored by high-quality arnica extract.

Intensive care cream with unisex fragrance

The high proportion of organic oil in our all-round cream also provides intensive all-round care for your face and body, without leaving any residue. With its unisex scent of soft vanilla with a lemony freshness and spicy ginger,

this classic care cream conjures up well-tended skin from head to foot in the blink of an eye.
