

## Sun Lotion SPF 30

Manufacturer: I&M  
Order ID: 523224  
Price: 15.90 €

### Product description:

Sun protection from head to toe

The waterproof Sun Protect Sun Lotion for all skin types provides safe, broad-spectrum sun protection with skin protection factor 30 and the best organic ingredients – well tolerated also for babies and children.

- Mineral filter
- UVA/UVB protection with SPF 30
- Waterproof
- Suitable for babies and children
- No whitening effect
- No nanoparticles<sup>1</sup>
- Reef friendly

Thanks to its innovative formula, this light sun lotion is now even easier to spread. The improved composition means it absorbs quickly and doesn't leave any white residue. This makes it suitable for both light and dark skin types.

Aloe Vera, Karanja and Sunflower

Fair trade Aloe Vera moisturises the skin, while mild karanja oil soothes the skin and provides additional sun protection. Meanwhile, the finest jojoba oil keeps the skin from drying out and provides antioxidant protection. Cold-pressed sunflower seed oil leaves the skin silky smooth and enhances lipid replenishment.

Non-nano and reef friendly in one sun lotion

Its very well-tolerated mineral filter protects the whole body from UVA and UVB radiation with a high skin protection factor of 30. With regular use, it prevents premature, light-induced skin ageing and pigmentation spots.

As a waterproof sun care product, it provides your skin with valuable sun protection, whether in the mountains or on the beach. And in the water, the super eco-friendly side of the vegan Sun Protect Sun Lotion without nanoparticles<sup>1</sup> really shines through because it is reef friendly and therefore harmless to coral reefs and oceans.

## Tips from Gabi Köberl:

Apply generously to the skin before exposure to the sun. Reapply regularly for optimal sun protection. Sun Protect Sun Lotion with SPF 30 is waterproof. However, it should be reapplied every time you come out of the water.
