Trust your intuition and magic will happen

When applying this nude pink vegan nail polish, let it be your reminder that the answer to almost any question lies within you and you just need to trust your gut feeling. This is a perfect colour when you want to calm your mind and be present with your intuition.

How many times did you follow your gut feeling and regret it? I am not surprised if you say almost never because, in our experience, it's almost never wrong.

›When I had to decide what my next career path after university would be, I started to think about where to apply for jobs. Any company or job title I saw I had a mighty resistance towards. My intuition was never more loud and clear than it was then: this is not what you want, so don't do it. I started to think about what I do want and journeyed back to my childhood dreams. I asked myself: if I could have anything I wanted what would it be? I started to think about actions to take in order to live that dream life of mine and even though these actions were way beyond my comfort zone, my intuition strongly told me to go for it‹

Tips from Gabi Köberl:

For best results, we recommend to first apply our vegan base coat, then 2-3 coats of nail polish and finish off with our vegan top coat. 1-2 days a week it is good to give your nails a little break and some fresh air. Once your nail polish is empty, remember to recycle it [here](#).
