Product description:

Your Affirmation: I am Intelligent

Who else has once compared their own intelligence to that of Einstein and then come to the conclusion that they are not? Or perhaps you have compared yourself to somebody else or maybe your definition of intelligence is knowing how to solve a complicated mathematical problem without a calculator and if you can't, well then you just are not? No. Stop that.

We were all born in the same state of ›intelligence‹ in which we all knew nothing. As we grew up we started learning things, some of us quicker than others and some of us slower. Also, we all learned different things and became experts in different things all which are defined as intelligent. It is so important to realize that there are different kinds of intelligence where we all have our strengths. Some us learn how to play the guitar without lessons within two months and some of will have lessons for 10 years and never really learn. Some of us are good in languages and some of us with numbers. Some people are extremely logical where others are emotional – both forms of intelligence. The least of us are excellent in all levels of intelligence but we are all intelligent in some way and YOU, you are intelligent. You can learn more of any level of intelligence if you want to but know that you are already smart and because of your intellect you can achieve anything you set your mind to! It is good to challenge your intelligence and always learn new things because not even your lifetime is enough to learn absolutely everything, but you can learn so many new amazing things that will develop your intelligence in one way or the other.

If you did bad on an exam or didn't get that promotion you were hoping for, don't give up and do not question your intelligence...ever. Learn from your mistakes, analyze what you could do better and then try again and try again so many times until you make it. Many times, persistence and determination will get you so far and

sometimes that is all you need to learn the things you need to know to get to the next level. Repeat it and believe it: >I am intelligent<

Tips from Gabi Köberl:

For best results, we recommend to first apply our vegan base coat, then 2-3 coats of nail polish and finish off with our vegan top coat. 1-2 days a week it is good to give your nails a little break and some fresh air. Once your nail polish is empty, remember to recycle it. Learn how to recycle it [here](#).
