

Centella New-Cell Elixir Body Oil

Manufacturer: Khadi
Order ID: Kh33371
Price: 18.90 €

Product description:

khadi Ayurvedic Elixir SKIN & SOUL OIL CENTELLA NEW-CELL: A new beginning for your skin. Feel the Ayurvedic effect of the regenerating connective tissue oil: refining, renewing and promoting elasticity.

The secret to the transformational effect comes from the ancient knowledge of humanity's oldest natural healing science – Ayurveda – and is traditionally used in Rasayana regeneration and revitalization treatment. Here the Ayurvedic combination of active ingredients is used to support the regeneration process in skin areas to be renewed and to provide firm connective tissue for the changing body – it is even recommended for stretch marks. At the same time, the delicate blend of essential oils stimulate your spirit; application becomes a truly sensuous experience.

Centella, or Indian pennywort, is sometimes also known as tiger grass, because the majestic Bengal tigers roll in its leaves to heal their wounds. According to Ayurvedic lore, Centella has the ability to repair damaged cells. It is traditionally used to regenerate skin and promote cell health. Each individual leaf of this beneficial plant is quite fragile on its own, but when the leaves are merged into a firm but elastic new whole, they become strong. This is symbolic of the effect Centella has on our cells according to Ayurvedic lore: Each individual cell may be fragile, but Centella combines them into a new, holistic network of cells that lends firmness to the tissue. In Rasayana treatments, amla berries are used for their high vitamin C content as antioxidants to stimulate collagen synthesis and promote elasticity. In the same way, vetiver is used for regenerating the skin and tissue.

In khadi CENTELLA NEW-CELL elixir, the Ayurvedic plant extract unites the individual effects of these hand-selected Indian medicinal herbs into a whole and multiplies them through the decoction's traditional manner of production. For this, the composition is gently boiled down for hours over an open fire based on ancient Ayurvedic recipes according to a traditional process. Thus the decoction we call khadi elixir comes into being.

khadi CENTELLA NEW-CELL Elixir Oil in combination with khadi SPICY CELL-LITE Elixir Oil and khadi TRIPHALA TRI-TOX Elixir Oil forms the body oil series “Shakti Shape.” Shakti is an Indian goddess symbolizing the primal force of the universe. Our SHAKTI SHAPE Series is dedicated to parts of the body that need a little more attention and an energy boost. The oils help restore your skin’s balance and lend it renewed energy.

khadi Skin & Soul Elixir Body Oils nourish your skin the way music feeds your Soul.

*from organic cultivation **components of natural essential oil

Tips from Gabi Köberl:

Feel how khadi CENTELLA NEW-CELL elixir body oil already firms your connective tissue as you massage it in! It is the transforming magic of the Ayurvedic recipe from ancient knowledge of humanity's oldest natural healing science – Ayurveda – which is traditionally used in the Rasayana regeneration and revitalization treatment. Feel the cell renewal effects of khadi CENTELLA NEW-CELL elixir body oil, the elasticity and a newly refined feel to the skin.

Power trio for holistic treatment and effectiveness:

khadi TRIPHALA TRI-TOX, khadi SPICY CELL-LITE and khadi CENTELLA NEW-CELL are your power trio for uniting the knowledge of traditional Ayurvedic Panchakarma treatments. Combining them allows your skin to release deposits and indulge in the something new. In the following ritual steps, we show you how to let go of everything old and support your cells’ regeneration:

Step 1: Let it flow! The ingredient combination of khadi TRIPHALA TRI-TOX body oil is traditionally used in the Ayurvedic Panchakarma treatment to release deposits that dehydrate cell tissue and guide them out through the lymphatic system. We recommend using it in the evening, so that its effect can unfold overnight and the lymph can flow intensively the next morning during activity.

Step 2: Burn, Baby, burn! The combination of Ayurvedic ingredients in khadi SPICY CELL-LITE body oil comes from the second step and high point of Panchakarma treatment and helps the previously released deposits to metabolize and move out! We therefore recommend use in the morning, so that you can start the day energized.

Step 3: Rising like a phoenix! The ingredient combination of khadi CENTELLA NEW-CELL body oil has its origin in the third phase of an Ayurveda treatment and is even used in the traditional Rasayana treatment for regenerating the cells, the tissue and the spirit and lending them new strength and elasticity. Feel the transformation to a new, stronger, more elastic whole! You can use khadi CENTELLA NEW-CELL for your wellbeing on the parts of your body that need special attention for regeneration and renewed strength.

khadi application ritual: Take time for yourself and listen to the khadi CENTELLA NEW-CELL application ritual here. It will guide you through a soothing meditative massage that unlocks the full potential of the khadi CENTELLA NEW-CELL Elixir. Use it to activate one of your deepest energy points – the root chakra – and place your trust in the intuition of your skin cells!

Occasional application: Take 1-2 pumps of the oil into your hand and gently massage it into your slightly moist skin using small circular motions. Give the oil time to work its magic as you anticipate the wonderful new sensation on your skin.

Pssst! Here's a tip: khadi also offers tantalizing Soaps.
