Product description:

The natural and vegan mascara from Kia-Charlotta gently wraps each lash with buildable volume with deep black pigments – perfect for shape and definition with a WOW factor. The secret to the texture of the mascara are its natural ingredients e.g. aloe vera, jojoba oil and goji berry extract which give the mascara a light & comfortable wear. The combination of vegan ingredients and natural volume help give you that little confidence boost with the motto: EYES ON ME!

Tips from Gabi Köberl:

Place the brush on the lash line and move it in slight zigzag movements to the tip of the lashes. Repeat the process until all the lashes are covered with the mascara. For a more intense volume, repeat the process until you have your desired result.
