

Eyeshadow Experiencing Life

Manufacturer: Kia Charlotta

Order ID: KCME002

Price: 19.90 €

Product description:

Shades of rose and copper

Experiencing Life is a natural and vegan eyeshadow with a soft, powdery texture that allows perfect blending without color loss. The formula with organic jojoba oil is particularly color-intensive as well as highly pigmented, making it ideal for perfecting any makeup look. In sustainable paper packaging and 100% plastic-free, not only the variety of shades is convincing, but also the responsible packaging. The eyeshadow palette, Experiencing Life, with its five different rosé and copper shades, offers endless variations to create different looks with light, soft tones to dark shades with a matte, satin or metallic finish.

Ingredients:

These colors are included:

Fall in Love: Shimmery sand color

Give Back: Shimmery champagne color

Dare to Feel: Metallic copper

Deep Talk: Metallic hazelnut brown

Try it Out: Matte chocolate brown

Tips from Gabi Köberl:

Pick up desired eyeshadow color with an applicator and apply as a base on the moving eyelid. For a more intense look, we always recommend starting with the lightest shade first and applying it to the eyelid and brow bone. To create more depth and expression, the darker shades can be built on top. Therefore, apply a second, darker eye

shadow color in a semi-circle in the crease and at the end of the lash line to frame the eye. Carefully blend the transitions of the different shades to create a particularly soft look.
