Product description:

So pure! Gentle moisturiser with no additives

The Clean Beauty Rosehip Moisturising Cream gives you silky smooth skin. Its gentle formula with nourishing rosehip oil is highly moisturising, particularly for dry areas of the face. Furthermore, its particularly clear and minimally irritating formula is reduced to carefully selected ingredients in organic quality – skin-friendly and vegan.

Aloe vera, squalane and rosehip

While hyaluron in combination with organic fair trade aloe vera moisturises dry skin many times over, pure squalane protects against further moisture loss. Together these plant-based substances ensure a pure, fresh complexion. Exquisite rosehip oil from the seeds of the wild rose, and obtained from certified organic sources, nourishes and soothes dry areas of skin. It is absorbed without leaving any residue. The perfect, crystal-clear facial care routine.

So clear! Clean Beauty for pure skin care

The Clean Beauty range offers facial skin care featuring selected nourishing ingredients that focus exclusively on the essentials. Transparent product formulations using plant-based ingredients offer a pure moisturising effect for your skin without any potentially irritating additives:

- no fragrances or allergens, such as essential oils
- no preservatives, such as alcohol
- no parabens, silicone, sulphates or microplastics

The Rosehip Moisturising Cream has a particularly gentle formula for an unbeatably fresh complexion, all with impeccable transparency when it comes to facial care – protecting the skin and the environment.
